

CARBON NEUTRAL DIPTON

Join us on our adventure to see if
small changes on-farm can make
big differences to our emissions.

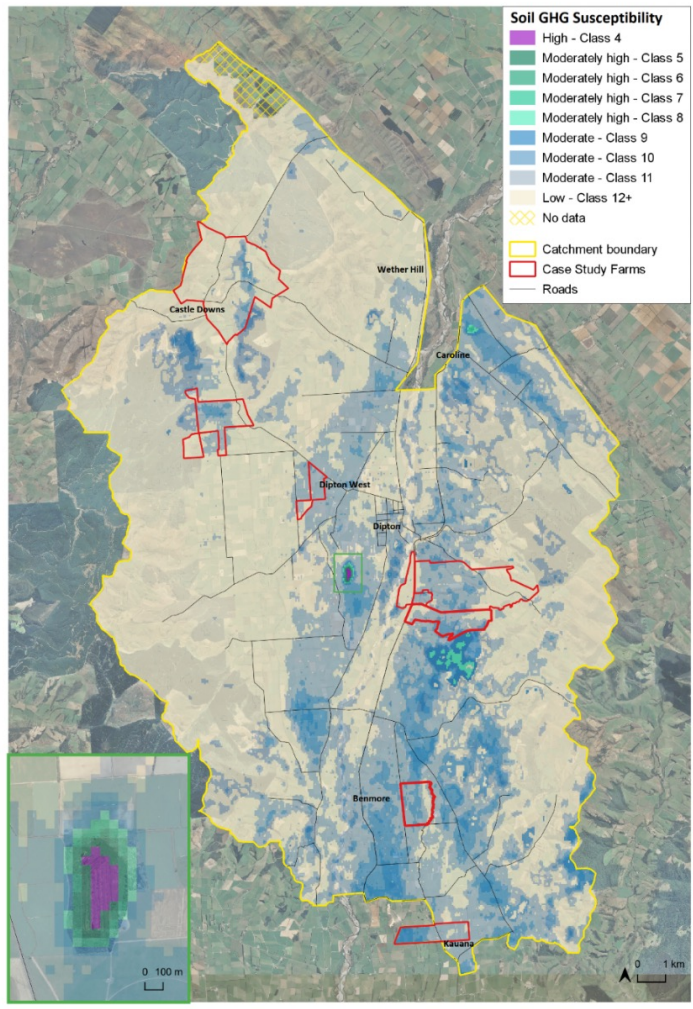

**THRIVING
SOUTHLAND**

*Tōnui ana te whenua. Tōnui ana te takata.
A thriving, prosperous land. A thriving, prosperous people.*

What's a Catchment Group

Greater Dipton Catchment Group

How Carbon Neutral Dipton came about

The process

Model a Base farm system

Model 2-3 mitigations/farm system changes

Quantify changes in GHG emissions

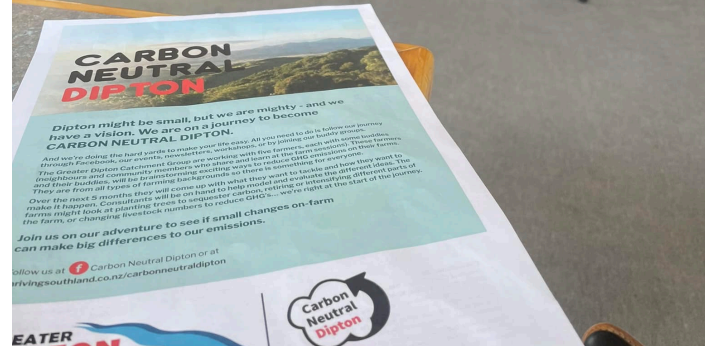

Assess impact on net profit and water quality

Report findings to farms and wider public

- Finding Efficiencies
- Stocking Policy
- Considering negative profitability areas
- Alternative Land Use
- Nitrogen inputs
- Technology
- Carbon forestry

Our Journey

Capturing the public and farmer's imagination

RNZ

The Southland catchment group working to make Dipton farms carbon neutral

Eva Davies · 14:16, Mar 19 2023

SUPPLIED/STUFF

The Greater Dipton Catchment Group presented its biggest project yet at the Carbon Neutral Dipton launch, drafting ways to help lower greenhouse gases on farms.

Next steps

- We're really positive about next steps!
- We'll be looking at the results and making a plan.... watch this space.
